Confirmation

The Žilina City confirms that the non-governmental association Servare et Manere, based in Žilina, initiated the implementation of a memorial dedicated to the Swedish landscape architect of European significance, Carl Gustav Swensson (1861 - 1910), the author of the park at the former textile factory in Žilina (*Silleiner Fabriken Adolf Löw & Sohn*).

The creation of a working team for the elaboration of a proposal for the manufacturing and installation of this monument was approved by the Municipal Council of Žilina on November 2, 2020 by Resolution No. 218/2020.

During his life, Swensson worked in several Central European countries and in 1891 in Žilina he realized his only landscape project in Slovakia. It is arguably the oldest and at the time the most important park in the city, of which, unfortunately, only a fragment has been preserved.

The Žilina City also confirms that the association Servare et Manere, represented by its CEO Mgr. Ing. Marek Sobola, Ph.D., in accordance and in collaboration with the Žilina City, is organizing the construction of the Swensson Memorial in a small city park situated in close proximity to the former textile factory, which will be called Carl Gustav Swensson Park.

Mgr. Peter Fiabáne
Mayor of Žilina

Mgr. Ing. Marek Sobola, Ph.D.
